YILDIZ BESLEYİCİLER

Hücre Tekerı veya Rotary Valf olarak da bilinen yıldız besleyiciler, çok geniş kullanım alanına sahiptir. Toz veya peletlenmiş malzemelerin; silolardan, silo konilerinden, pnömatik taşıyıcı sistemlerden, helzon konveyörl erden ya da benzeri yerlerden boşaltımı sırasında ve dağıtımın kontrolü için kullanılır.

Paslanmaz çelikten mamül opsiyonlar mevcuttur.

ROTARY VALVES

Also known as the Airlock, rotary valves can be used in a very wide range of applications. They are used to control the flow of bulk solid material during discharge from silos, silo bunkers, pneumatic conveyors, screw conveyors, etc.

Stainless steel options are available.
